### 2022 BED BUYING GUIDE

Please find a list of information you will need in order to place your bed order.  
Follow this check-list and you can contact us to place your order or get a quote.

SLEEPING HEIGHT
_____ inches

#### SLEEPING HEIGHT

This is your desired sleeping height, or the height of the top of your mattress from the floor. Our beds are designed to fit your needs, the headboard will always fall 1" below your mattress height to keep your pillows and sheets in order. We suggest a standard sleep height of 27" - 30". All of our bed styles will fall within this range using typical mattress and boxsprings.

MATTRESS THICKNESS
_____ inches
BOXSPRING THICKNESS
_____ inches

#### MATTRESS, BOXSPRING THICKNESS & SLATS

These are the dimensions of your mattress and boxspring. Standard boxsprings are 5 - 7", these work best with our beds but we can accommodate other sizes, just ask. Our twin and full sizes come with bracket irons, our queen and king sizes come both with irons and slats for support. The queen has three slats running horizontally, the king has one in the center to accommodate a typical split king boxspring.

STYLE & SIZE
FINISH & WOODTYPE
BOLT COVERS

#### STANDARD OPTIONS

Specify standard selections such as finish and style, also blind bolt covers, premium woods like Tiger Maple, your bolt cover selection, or if you would like a solid plywood platform insert, specified when you do not have a boxspring, this incurs a small upcharge per size.

#### ADDITIONAL CRITICAL INFORMATION

For any other critical information like ceiling height if you are buying a tall or four poster bed or something with a canopy.

Post heights 20" - 120"

Bottom of Headboard 1" below sleeping height

Blind bolt cover option  
Standard on all Contemporary styles
